This declaration is based on Product Category Rules:

CEN Standard EN 15804:2012+A1:2013 serves as core PCR
 NPCR 026:2018 Part B for furniture

Organisation no:

No. 983 826 342

Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

Issue date: 28.10.2021

Valid to: 28.10.2026

Declared unit:

1 Pcs Scandia JR

Year of study:

2020

Declared unit with option:

A1,A2,A3,A4

Comparability:

EPDs from programmes other than the Norwegian EPD Foundation may not be comparable

Functional unit:

1 Pcs. Fjordfiesta Scandia JR chair incl. packaging. Delivered at customer in Oslo, Norway

Development and verification of EPD:

The declaration has been developed and verified using EPD tool lca.tools ver EPD2020.11, developed by LCA.no AS. The EPD tool is integrated into the company's environmental management system, and has been approved by EPD-Norway

General information on verification of EPD from EPD tools:

Independent verification of data, other environmental information and the declaration according to ISO 14025:2010, § 8.1.3 and § 8.1.4. Individual third party verification of each EPD is not required when the EPD tool is i) integrated into the company's environmental management system, ii) the procedures for use of the EPD tool are approved by EPDNorway, and iii) the process is reviewed annually. See Appendix G of EPD-Norway's General Programme Instructions for further information on EPD tools.

Developer of EPD:

Jonny Fossum

Reviewer of company-specific input data and EPD:

Pål Lunder

Verification of EPD tool:

Independent third party verification of the EPD tool, background data and test-EPD in accordance with EPDNorway's procedures and guidelines for verification and approval of EPD tools.

Cut-off criteria:

All major raw materials and all the essential energy is included. The production processes for raw materials and energy flows with very small amounts (less than 1%) are not included. These cut-off criteria do not apply for hazardous materials and substances.

Data quality:

Specific data for the product composition are provided by the manufacturer. They represent the production of the declared product and were collected for EPD development in the year of study. Background data is based on registered EPDs according to EN 15804, Ostfold Research databases, ecoinvent and other LCA databases. The data quality of the raw materials in A1 is presented in the table below.

Allocation:

The allocation is made in accordance with the provisions of EN 15804. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

Additional technical information:

We believe that timeless design is a solid environmental effort; enhanced further by the light environmental footprint we leave behind with each carefully assembled piece of furniture. To ensure the quality of our products and the working conditions of our employees we manufacture our furniture ourselves or by close friends. Scandia Junior is made in Norway.

The materials used are chosen with great consideration to the environmental impact of each component. All wood is FSC certified. Water based coating is available upon specific request. Scandia Junior is tested in accordance with "Møbelfakta" quality requirements.

Our long-term goal is to lead the way towards becoming fully circular and sustainable. As of today- the Scandia Junior Chair is also possible to rent. Returned chairs are, refurbished and made available for new customers.

Fjordfiesta is an Eco-lighthouse certified enterprise.
